

GBM Wealth Management, Inc.

Firm Brochure

Part 2A of Form ADV

This Brochure provides information about the qualifications and business practices of GBM Wealth Management, Inc (“GBM Wealth,” “Advisor,” “we,” “our,” “us,” or “Firm”). When we use the words “you,” “your,” and “client,” we are referring to you as our client or prospective client. If you have any questions about the contents of this Brochure, please contact us at (281) 745-9100 or via email at compliance@gbms.com. The information in this Brochure has not been approved or verified by the United States Securities and Exchange Commission (“SEC”) or by any state securities' authority.

GBM Wealth is a registered investment adviser. The registration of an investment advisor does not imply any level of skill or training. The oral and written communications made to you by GBM Wealth, including the information contained within this Brochure, should provide you with information to determine whether to hire or retain GBM Wealth as your adviser.

Additional information about GBM Wealth is also available on the SEC’s Web site at www.adviserinfo.sec.gov. The SEC’s website also provides information about any persons affiliated or registered with, and or required to be registered, as an investment adviser representative of GBM Wealth.. The firm’s CRD number is: 145049

2700 Post Oak Blvd., Suite 1110
Houston, Texas 77056
(281) 745-9100

ITEM 2: MATERIAL CHANGES

This item discusses only specific material changes that are made to the Brochure since the Firm's last annual update. It will also reference the date of the last update of the brochure. Since the Firm's last update dated March 25, 2025, the following material changes have been made to this Brochure:

- **Item 4- Advisory Business:** The Firm's sub-adviser, formerly known as BCP Global, LLC, has changed its name to Xendia Wealth, LLC (CRD #157973). All references to BCP Global throughout the document have been updated accordingly. Item 4 has been updated to reflect the tiered advisory fee schedule and custodial arrangements applicable to accounts sub-advised by Xendia Wealth and custodied at Interactive Brokers.
- **Item 5 and Item 10- Fees, Compensation and Termination of Services:** The Firm's annual advisory fee range has been updated from 0.25% -1.50% to 0.25%-1.75%. The tiered fee schedule applicable to Xendia Wealth sub-advised accounts, the tiered revenue sharing arrangement between GBM Wealth and Xendia Wealth, and the deduction of trading and operational costs by Interactive Brokers have been added. The Brochure has been updated to disclose that GBMI shares in a portion of margin interest fees charged to clients.

We will ensure that you receive a summary of any material changes to this and subsequent Brochures within 120 days of the close of our business' fiscal year, which is December 31. We may further provide you with a new Brochure as necessary based on changes or new information, at any time, without charge.

ITEM 4: ADVISORY BUSINESS

A. Firm Description

GBM Wealth Management Inc. (“GBM Wealth” or “the Firm”) was formed as a Delaware Corporation on May 19, 2006 and is 100% owned by Portfolio Investments, Inc. The Firm is registered as an Investment Advisor with the Securities and Exchange Commission (“SEC”) effective March 29, 2024. GBM Wealth and its affiliates, Illac Advisors, LLC and GBM International, (“GBMI”) are also under common indirect ownership with GBM Casa de Bolsa, a Mexican registered securities broker/dealer; ultimate beneficial owner for all is Corporativo GBM SAB de CV, a publicly traded company.

B. Types of Advisory Services

GBM Wealth provides investment advisory services to individuals, investment companies, trusts, corporations and other business entities. GBM Wealth offers continuous investment advice and portfolio management services, including asset allocation across various asset classes such as cash, equity mutual funds, and fixed income. By selecting specific securities, the firm aims to diversify investments, manage risk, and help clients achieve their stated investment goals.

The team at GBM Wealth conducts comprehensive analyses of securities, including fixed income, equity, funds, and other investment instruments, tailoring portfolios to each client's unique needs. They have developed flexible models and strategies for selecting securities that accommodate a variety of investing styles, such as conservative, moderate, aggressive, ETF-focused, UCITS focused and quantitative approaches, allowing them to adapt to different client requirements.

GBM Wealth may suggest models or strategies to clients that include recommendations from unaffiliated third-party asset managers regarding buying or selling securities. For discretionary accounts, the firm retains the discretion to invest clients' assets based partially or wholly on these third-party models or strategies.

GBM Wealth maintains a Limited Power of Attorney for all discretionary accounts for the purposes of directing and or otherwise effecting investments on behalf of the managed account, for the direct payment of the Firm's fees and/or the payment of commissions, custodial fees and or other charges incurred by the managed account. The Firm also maintains non-discretionary accounts.

The Firm, may also oversee client accounts that contain private funds or private investments, purchased by the client separately and, based upon the respective advisory agreement, become subject to the Firm's oversight.

The relationship between the parties may be terminated by either party upon 30 days written notice. Notwithstanding the above, if the appropriate disclosure statement was not delivered to the client at least 48 hours prior to the client entering any written or oral advisory contract with this investment adviser, then the client has the right to terminate the relationship, without penalty, within five business days after entering the contract.

GBM Wealth's advisory services are made available to clients primarily through its investment professionals - individuals associated with the firm as Investment Advisor Representatives ("Advisor Representatives"). Each advisory relationship at GBM Wealth is managed by one or more Advisor Representatives registered with the firm, who serve as the primary point of contact between GBM Wealth and the client. Advisor Representatives collect financial profile information from clients and recommend specific advisory services or programs to clients as deemed appropriate for their individual situation, financial circumstances, goals and objectives.

GBM Wealth enters certain of its orders through GBMI an affiliated broker-dealer that maintains a custodial arrangement with Pershing, LLC whereby GBMI clears securities transactions on a fully disclosed basis. The Firm also executes transactions and maintains custodial arrangements with JP Morgan, Morgan Stanley, UBS, Santander, and Interactive Brokers via Xendia Wealth LLC ("Xendia") (*previously BCP Global LLC and "BCP"*).

The Firm maintains custody with both discretionary and non-discretionary accounts at Pershing, JP Morgan, Morgan Stanley, UBS, Santander, and Interactive Brokers via Xendia. The Firm will also maintain and custody accounts with Interactive Brokers directly without Xendia as the sub advisor. Accounts opened can be opened online by the client.

GBM Wealth offers proprietary model portfolios for U.S. and non-U.S. residents. The models are comprised of ETF's and/or UCITS which can be similar to a number of common equity and bond indices.

Accounts in which a model portfolio is selected are established at the respective custodian. Smaller accounts are established through Xendia and custodied at Interactive Brokers. High net worth clients are established with either Pershing, Morgan Stanley, JP Morgan, USB, Santander, or Interactive Brokers.

A detailed description of all services and related fees can be found in Item 5, *Fees and Compensation*, where services and costs are presented so that all clients and prospective clients can review all of our services and description of fees in a streamlined manner.

Sub-Advisors and Selling Agreements

The Firm maintains selling agreements with Blackstone REIT, Blackstone Private Credit Fund, and a Model Portfolio Agreement with Blackrock. The Firm has not utilized any of the agreements to date.

The Firm maintains a sub-advisory agreement with Xendia. GBM Wealth uses the services of Xendia to sub advise client accounts in relation to the portfolios offered and managed by GBM Wealth. Xendia is also managing GBM's proprietary model portfolios for the accounts in which it is selected. For client accounts, in which Xendia is selected as the sub-adviser, accounts are custodied at Interactive Brokers. Xendia also manages client accounts using a tiered fee structure based on the month-end asset value of each client's accounts, as reflected on the custodial statement. Clients with accounts sub-advised by Xendia should refer to Item 5 for a full disclosure of the applicable fee schedule and the manner in which Xendia is compensated for the advisory fees collected.

The Firm also offers investment advisory services utilizing the services of third-party Portfolio Managers ("Sub-Advisors"). Upon consultation with the Client and the Firm, these Sub-Advisors will place clients in a model strategy that they believe best fits the client's investment objectives. These Sub-Advisors will use discretion in managing the investment within each model portfolio (i.e., select which securities to purchase or sell), but cannot change the model portfolio utilized for the client without the client's specific written authorization. Should a client decide to utilize the services of a Sub-Adviser, the client agrees to use the custodian recommended by the Sub-Advisor. If the client utilizes the services of a Sub-Advisor, the client will receive a copy of the Sub-Advisor's ADV Part 2A.

Client Responsibilities

GBM Wealth's advisory services depend and rely upon the information received from clients. The adviser cannot adequately perform its obligations and fiduciary duties to the client unless the client discloses an accurate and complete representation of their financial position and investment needs, timely remits requested data or paperwork, provides updates promptly upon changes, and otherwise fulfills their responsibilities under their Agreement. Advisor Representatives will rely upon the accuracy of information furnished by the client or on their behalf without further investigation. GBM Wealth will not be required to verify the information obtained from clients or other professional advisors, such as accountants or attorneys.

Clients will acknowledge and agree to their obligation to promptly notify GBM Wealth in writing if any information material to the advisory services to be provided changes, information previously provided that might affect how their account should be managed occurs, or if previously disclosed data becomes inaccurate. The client or their successor shall also promptly notify us in writing of the client's dissolution, termination, merger, or bankruptcy if the client is other than a natural person and the occurrence of any other event that might affect the validity of their Agreement or our authority thereunder.

GBM Wealth reserves the right to terminate any client engagement where a client has willfully concealed or has refused to provide pertinent information about information material to the advisory services to be provided or individual/financial situations when necessary and appropriate; in its judgment, provide proper financial advice.

C. Client Tailored Services and Client Imposed Restrictions

GBM Wealth tailors its advisory services to each individual client based upon the client's financial and risk profile. Clients may impose guidelines or restrictions on certain types of securities or investments but such restrictions must be provided in writing. In addition, the firm obtains an "Investment Advisory Mandate" for each client, which outlines the acceptable parameters for each type of investment in the respective client account(s).

D. Wrap Fee Programs

GBM Wealth does not sponsor or manage a wrap fee program.

E. Amounts of Assets Under Management

As of December 31, 2025, the Firm had assets under management of \$346,401,658 of which \$39,564,043 is managed on a non-discretionary basis.

ITEM 5: FEES, COMPENSATION AND TERMINATION OF SERVICES

A. Description of Compensation and Basic Fee Schedule

GBM Wealth's annual advisory fee ranges from 0.25% to 1.75% of net asset value, depending on account size, complexity, and other factors. The specific fee applicable to each client will be set forth in the client's advisory agreement. All advisory fees are negotiable. The specific fee the client will be charged will be outlined in the client's specific advisory agreement. These fees are payable monthly in arrears, calculated as described below. It should be noted that all advisory fees are negotiable.

To the extent affiliated funds, equities or corporate bonds are selected to fill overall components of the objective strategy, the amounts invested in these products will be excluded when calculating the advisory fee payable to GBM Wealth. Fees are calculated daily using the Net Asset Value of the Account at the end of each day. The calculation of the aforementioned Advisory Fee shall be based upon a 365-day year. The amounts to be paid will be the result of adding up the daily fees from the days in the billing period. Fees for weekends and other non-business days shall be calculated based on the net asset value of the managed accounts on the immediately previous business day. This number is then divided by 365 and then multiplied by 1% or the agreed upon rate and then by the number of days in the billing period. Accounts opened in mid-month will be assessed a pro-rated management fee. Fees for the initial month will be adjusted pro-rata based upon the number of calendar days in the calendar month that the Agreement goes into effect. It should be noted that the fee charged on cash or equivalent assets may be greater than the annualized yield on such assets.

Xendia Sub-Advisory Accounts- Fee Schedule:

For client accounts sub advised by Xendia Wealth LLC (CRD#157973) and custodian at Interactive Brokers, advisory fees are charged monthly in arrears based on a tiered fee structure applied to the month-end asset value of the client's account(s), as reflected on the custodial account statement. The client fee schedule for Xendia Wealth account(s) is as follows:

- For clients with less than \$50,000 in AUM, the annual advisory fee is 1.65% of the Asset Value of the account.
- For clients with \$50,001 to \$100,000 in AUM, the annual advisory fee is 1.40% of the Asset Value of the account.
- For clients with \$100,001 to \$200,000 in AUM, the annual advisory fee is 1.20% of the Asset Value of the account.
- For clients with more than \$200,001 in AUM, the annual advisory fee is 1.00% of the Asset Value of the account.

Advisory fees for Xendia accounts are automatically calculated and debited monthly by Interactive Brokers directly from the client's account and credited to Xendia's account at Interactive Brokers. Xendia then apportions the advisory fee between GBM Wealth and Xendia

on a monthly basis in accordance with their sub-advisory agreement.

The advisory fee is calculated daily based on the ending market value of the assets in the account. Interactive Brokers applies the applicable tiered annual rate to the ending market value and divides by 252 business days to derive the daily fee amount. The fee charged to the client is the sum of daily fee calculations for the billing period.

In addition to the advisory fee, Interactive Brokers may deduct trading and operational costs (“Trading and Operation Costs”) from the client accounts in connection with the execution of transactions. These costs are charged by Interactive Brokers and are separate from and in addition to the advisory fee described above. Clients should review their Interactive Brokers account statements carefully to identify all charges, including trading and operational costs.

Xendia Wealth Sub-Advisory Compensation:

GBM Wealth compensates Xendia from the advisory fees received from clients whose accounts are managed by Xendia. The compensation paid to Xendia represents a percentage of the total advisory fees collected from applicable client accounts, apportioned based on GBM Wealth’s total regulatory assets under management as follows:

- When GBM Wealth’s total AUM is \$0 to \$300 million, Xendia receives 24% of the advisory fees attributable to the Xendia managed accounts.
- When GBM Wealth’s total AUM is \$300 million to \$500 million, Xendia receives 20% of the advisory fees attributable to the Xendia managed accounts.
- When GBM Wealth’s total AUM exceeds \$500 million, Xendia receives 15% of the advisory fees attributable to the Xendia managed accounts.

This compensation arrangement is paid solely from the advisory fees GBM Wealth collects from clients and does not result in any additional charge to clients above the advisory fee schedule described above. Clients should be aware, however, that this arrangement creates a conflict of interest in that GBM Wealth has a financial incentive to direct client assets to Xendia managed accounts. GBM Wealth believes this conflict is mitigated by its obligation to act in each client’s best interest and its process for evaluating the suitability of Xendia’s services for each client’s individual circumstances.

For certain clients, fees may be subject to change with thirty (30) days prior written notice. If the client does not want to be bound by the new fee schedule, they should notify the Firm to discuss the available options. Notwithstanding the above, certain clients of the Firm with pre-existing relationships may initially be charged fees which are less than those set out above. With regard to employee related accounts and certain other accounts, the fees may be less, depending upon a number of factors, including portfolio size, length of employment and relationship to the employee.

GBM Wealth maintains a Limited Power of Attorney for all discretionary accounts managed by GBM Wealth for the purposes of directing and/or otherwise effecting investments on behalf of the

managed account, for the direct payment of the Firm's fees and or the payment of commissions, custodial fees and or other charges incurred by the managed account.

The above fee-schedule is inclusive of the fees paid to GBM Wealth and the respective sub-advisor and is subject to negotiation on a client-by-client basis at GBM Wealth's discretion.

B. Payment of Fees

Fees are payable monthly, in arrears and such fees may be deducted from client's account(s) monthly following the end of the calendar month. Payment of advisory fees of a de minimis nature can be waived at GBM Wealth's discretion.

C. Other Fees

To the extent mutual funds are selected to fill components of the overall investment strategy, the annual advisory fee set forth above does not include the customary fees and expenses associated with investing in mutual funds or other costs of establishing and maintaining an account with mutual funds including Rule12b-1 fees and expenses. The client is advised that, in addition to the annual advisory fee set forth above, each mutual fund in which assets are invested will incur non-investment advisory fees and other expenses for which client will bear a proportionate share.

Specific fees that could be incurred by the customer, as applicable, include, but are not necessarily limited to:

- Transaction fees
- Exchange fees
- Custodial fees
- Wire transfer and electronic fund processing fees
- Foreign Account fees
- Asset movement fees

The Firm's affiliate, GBMI currently receives a portion of the wire transfer fees charged to the client. GBMI may also receive a portion of the foreign fees charged to clients. GBM Wealth does not receive any portion of these fees noted above.

The Firm also has clients that participate in a loan advance program and are charged a fee for this service. The Firm affiliated broker-dealer, GBMI does share in a portion of such fees.

Clients will be charged a fee for margin interest if their account purchases securities on margin. The Firm's affiliated broker-dealer, GBMI, shares in a portion of the margin interest fees charged to clients. Clients should be aware that this arrangement creates a conflict of interest, as GBMI has a financial incentive in connection with client margin activity. GBM Wealth does not receive any portion of these margin fees. Client may also be charged fees for various non-trade activities such as account maintenance fees, wire transfer fees and other additional services that incur a pass-

through fee. For accounts that are not maintained at an affiliated broker dealer, it is expected that the client may pay a commission for trades executed in their accounts.

D. Prepayment of Fees

The Firm does not charge advisory fees in advance; therefore, if a client terminates an advisory contract, the Firm will not return any previously paid advisory fees.

E. Other Compensation

The Firm does not accept any other compensation for its services other than the fees disclosed in this Brochure.

ITEM 6: PERFORMANCE-BASED FEES AND SIDE-BY-SIDE MANAGEMENT

GBM Wealth does not accept performance-based fees or participate in side-by-side management. Performance-based fees are fees that are based on a share of a capital gains or capital appreciation of a client's account.

Side-by-side management refers to the practice of managing accounts that are charged performance-based fees while at the same time managing accounts that are not charged performance-based fees. Our fees are calculated as described in the *Fees and Compensation* section above, and are not charged on the basis of a share of capital gains upon, or capital appreciation of, the funds in your advisory account.

ITEM 7: TYPES OF CLIENTS

GBM Wealth provides investment advisory services to individuals, investment companies, trusts, corporations and other business entities. In general, we require a minimum of \$10,000 to open and maintain an advisory account on an electronic platform and we require a minimum of \$250,000 to open an account on other platforms. At our discretion, we may waive this minimum account size. For example, we may waive the minimum if you appear to have significant potential for increasing your assets under our management.

ITEM 8: METHODS OF ANALYSIS, INVESTMENT STRATEGIES AND RISK OF LOSS

A. Methods of Analysis and Investment Strategies

GBM Wealth does not utilize a single methodology in determining investment strategies for its clients. After gathering appropriate suitability and financial information on a client, the Firm will construct a portfolio that is designed to meet the client's needs and objectives. The analysis will be mostly fundamental in nature as GBM Wealth takes a long-term view and does not anticipate actively trading accounts. A key goal of the Firm is to provide its clients with a well-diversified portfolio that performs well over the long term. The portfolios may consist of equities, fixed income, mutual funds, ETFs, UCITS and other instruments and may be handled directly by GBM Wealth or through one or more third party money managers that the Firm may choose to utilize. Clients should be aware that investing in securities involves risk of loss that they should be prepared to bear.

B. Material Risks

All strategies, to varying degrees, contain risks inherent to the investments utilized. GBM Wealth's investment strategies may be subject to the certain risks based upon the securities utilized in managing the strategies. Many of the principal investment risks inherent in the strategies are discussed under Item 8 C below.

C. Certain Risk Factors

Our investment strategies and advice may vary depending upon each client's specific financial situation. As such, we determine investments and allocations based upon clients' predefined objectives, risk tolerance, time horizon, financial information, liquidity needs and other various suitability factors. Your restrictions and guidelines may affect the composition of your portfolio. **It is important that you notify us immediately with respect to any material changes to your financial circumstances, including for example, a change in your current or expected income level, tax circumstances, or employment status.**

Tax Considerations

Tax efficiency may be a part of the overall strategy that we focus on for clients. However, regardless of your account size or any other factors, we strongly recommend that you consult with a tax professional regarding the investing of your assets.

Custodians and broker-dealers must report the cost basis of equities acquired in client accounts. You are responsible for contacting your tax advisor to determine if this accounting method is the right choice for you. If your tax advisor believes another accounting method is more advantageous, provide written notice to our firm immediately and we will alert your account custodian of your individually

selected accounting method. Decisions about cost basis accounting methods will need to be made before trades settle, as the cost basis method cannot be changed after settlement.

Risk of Loss

Investing in securities involves risk of loss that you should be prepared to bear. We do not represent or guarantee that our services or methods of analysis can or will predict future results, successfully identify market tops or bottoms, or insulate clients from losses due to market corrections or declines. We cannot offer any guarantees or promises that your financial goals and objectives will be met. Past performance is in no way an indication of future performance.

Recommendation of Particular Types of Securities

We recommend various types of securities and we do not primarily recommend one particular type of security over another since each client has different needs and different tolerance for risk. Each type of security has its own unique set of risks associated with it and it would not be possible to list here all of the specific risks of every type of investment. Even within the same type of investment, risks can vary widely. However, in very general terms, the higher the anticipated return of an investment, the higher the risk of loss associated with the investment. A description of the types of securities we may recommend to you and some of their inherent risks are provided below.

Mutual Funds and Exchange Traded Funds: Mutual funds and exchange traded funds ("ETF") are professionally managed collective investment systems that pool money from many investors and invest in stocks, bonds, short-term money market instruments, other mutual funds, other securities, or any combination thereof. The fund will have a manager that trades the fund's investments in accordance with the fund's investment objective. While mutual funds and ETFs generally provide diversification, risks can be significantly increased if the fund is concentrated in a particular sector of the market, primarily invests in small cap or speculative companies, uses leverage (i.e., borrows money) to a significant degree, or concentrates in a particular type of security (i.e., equities) rather than balancing the fund with different types of securities. ETFs differ from mutual funds since they can be bought and sold throughout the day like stock and their price can fluctuate throughout the day. The returns on mutual funds and ETFs can be reduced by the costs to manage the funds. Also, while some mutual funds are "no load" and charge no fee to buy into, or sell out of, the fund, other types of mutual funds do charge such fees which can also reduce returns. Mutual funds can also be "closed end" or "open end". So-called "open end" mutual funds continue to allow in new investors indefinitely whereas "closed end" funds have a fixed number of shares to sell which can limit their availability to new investors.

ETFs may have tracking error risks. For example, the ETF investment adviser may not be able to cause the ETF's performance to match that of the Underlying Index or other benchmark, which may negatively affect the ETF's performance. In addition, for leveraged and inverse ETFs that seek to track the performance of their Underlying Indices or benchmarks on a daily basis, mathematical compounding may prevent the ETF from correlating with performance of its benchmark. In addition, an ETF may not have investment exposure to all of the securities included in its Underlying Index, or its weighting of investment exposure to such securities may vary from that of the Underlying Index. Some ETFs may invest in securities or financial instruments that are not included in the Underlying Index, but which are expected to yield similar performance.

Bonds: Corporate debt securities (or "bonds") are typically safer investments than equity securities, but their risk can also vary widely based on: the financial health of the issuer; the risk that the issuer might default; when the bond is set to mature; and, whether or not the bond can be "called" prior to maturity. When a bond is called, it may not be possible to replace it with a bond of equal character paying the same rate of return.

Limited Partnerships: A limited partnership is a financial affiliation that includes at least one general partner and a number of limited partners. The partnership invests in a venture, such as real estate development or oil exploration, for financial gain. The general partner does not usually invest any capital, but has management authority and unlimited liability. That is, the general partner runs the business and, in the event of bankruptcy, is responsible for all debts not paid or discharged. The limited partners have no management authority and confine their participation to their capital investment. That is, limited partners invest a certain amount of money and have nothing else to do with the business. However, their liability is limited to the amount of the investment. In the worst-case scenario for a limited partner, he/she loses what he/she invested. Profits are divided between general and limited partners according to an arrangement formed at the creation of the partnership.

Investing in Alternative Investments is highly speculative and is suitable only for those who (a) understand and are willing to assume the economic, legal and other risks involved, and (b) are financially able to assume significant losses. Alternative Investments may not be an appropriate investment for retirement funds. Before deciding to invest in Alternative Investments you should carefully consider your investment objectives, level of experience, and risk appetite. The possibility exists that you could sustain a loss of some or all of your initial investment and therefore you should not invest money that you cannot afford to lose. You should be aware of all the risks associated with Alternative Investments and seek advice from your advisor if you have any doubts.

Securities used by GBM Wealth's investment strategies may be subject to the following principal investment risks due to the variety of investments utilized in each strategy:

Credit Risks – The risk that the portfolio could lose money if the issuer or guarantor of a fixed-income security, or the counter-party to a derivative contract, is unable or unwilling to meet its financial obligations.

Counter-Party Risks – A portfolio may incur a loss if the other party to an investment contract, such as a derivative, fails to fulfill its contractual obligation.

Currency Risks – The risk that foreign currencies will decline in value relative to the US dollar and affect a portfolio's investments in foreign (non-US currencies or in securities that trade in and receive revenues in, or in derivatives that provide exposure to, foreign (non-US) currencies.

Debt Securities Risks – The issuer of a debt security may fail to pay interest of principal when due, and changes in market interest rates may reduce the value of debt securities or reduce the portfolio's returns.

Emerging-Market Risk – Foreign investment risks are typically greater for securities in emerging markets, which can be more vulnerable to recessions, currency volatility, inflation and market failure.

Equity Risks – The risk that the value of equity securities, such as common stocks and preferred stocks, may decline due to general market conditions which are not specifically related to a particular company or to factors affecting a particular industry or industries. Equity securities generally have greater price volatility than fixed income securities.

ETF Risks – Portfolio will be exposed indirectly to all of the risks of securities held by an ETF.

Foreign Investment Risk – Foreign investments face the potential of heightened illiquidity, greater price volatility and adverse effects of political, regulatory, tax, currency, economic or other macroeconomic developments.

General Economic and Market Conditions Risk- Global and local economic growth, interest rates, availability of credit, credit defaults, inflation rates, economic uncertainty, changes in laws (including laws relating to taxation of clients' investments), trade barriers, currency exchange controls, and national and international political circumstances (including wars, terrorist acts or security operations), including pandemic (i.e. coronavirus) or epidemic events, may affect the level and volatility of the prices and the liquidity of clients' investments. Volatility or illiquidity could impair clients' profitability or result in losses.

High-Yield Securities Risk – High-yield securities have a much greater risk of default or of not returning principal and tend to be more volatile than high-rated securities of similar maturity.

Interest Rate Risk – The risk that fixed income securities will decline in value because of an increase in interest rates.

Issuer Risk – The value of a security may decline because of adverse events or circumstances that directly relate to conditions at the issuer or any entity providing it credit or liquidity support.

Issuer Non-Diversification Risk – The risks of focusing investments in a small number of issuers, industries, or foreign currencies, including being more susceptible to risks associated with a single economic, political or regulatory occurrence than a more diversified portfolio might be.

Liquidity Risk – A security may not be able to be sold at the time desired or without adversely affecting the price.

Market Risk – The market price of securities held by a portfolio may rapidly or unpredictably decline due to factors affecting securities markets generally or particular industries.

Mortgage and Asset-Backed Securities Risk – These securities may decline in value when defaults on the underlying mortgage or assets occur and may exhibit additional volatility in

periods of changing interest rates. When interest rates decline, the prepayment of mortgages or assets underlying such securities may require the reinvestment of money at lower prevailing interest rates, resulting in reduced returns.

ITEM 9: DISCIPLINARY INFORMATION

The Firm and its employees have not been involved in any legal or disciplinary events in the past 10 years that would be material to a client's evaluation of the firm or its personnel.

However, an affiliate of the Firm, GBMI, which is a FINRA member broker-dealer, was subject to a fine and censure in connection with certain anti-money laundering supervisory requirements. GBM Wealth believes this matter does not impair the Firm's ability to serve its advisory clients. A full description of this action may be found on the FINRA BrokerCheck Web site at <https://brokercheck.finra.org/firm/summary/28684>.

ITEM 10: OTHER FINANCIAL INDUSTRY ACTIVITIES AND AFFILIATIONS

A. Registration as a Broker/Dealer or Broker/Dealer Representative

GBM Wealth maintains a relationship with GBMI, a related broker/dealer. GBM Wealth is registered with the Securities and Exchange Commission and “Notice files” with various state jurisdictions and GBMI is a member firm of FINRA. This affiliation creates a conflict in that GBMI will be used to execute portfolio transactions for investment advisory clients of GBM Wealth. In order to mitigate this conflict, GBM Wealth and GBMI will conduct these transactions subject to proper, and customary, disclosure regarding the two firms’ affiliation. GBMI executes all equity trades on an Agency basis and all fixed income trades (corporate, and government bonds of both US and foreign entities) on a “Riskless Principal” basis with neither GBMI nor the Firm receiving any compensation (in the form of commissions or markup/markdowns) for executing trades on either an Agency or “Riskless Principal” basis with the Firm’s clients. In addition, GBMI will pass through the charges from its clearing broker. This compensation is addressed below. If GBM Wealth utilizes a broker/dealer designated by the client other than GBMI to execute brokerage transactions, GBM Wealth may not have the authority to negotiate commissions or obtain volume discounts, thus best execution may not be achieved. If the client does utilize GBMI, they will not be charged commissions, which may result in higher execution costs being charged by other executing broker-dealers. Additionally, while GBM Wealth will seek to obtain the best combination of price and execution for such transactions, lower transaction costs or better execution may be available elsewhere, for example, by the execution of the transaction through a so-called “discount broker.” However, GBM Wealth strives to seek the best combination of price and execution for transactions.

If an investment advisory client utilizes GBMI as the broker/dealer, GBM Wealth’s selection of money-market mutual funds or comparable investments in which to hold cash reserves in the client's account is limited to certain investments. The selection includes money-market, and government money-market funds, and the issuers of funds pay GBMI a distribution fee in its capacity as a broker/dealer. GBMI may also receive additional compensation based on client account balances being held in the money-market funds. Additionally, cash balances arising from the sales of securities, redemption of debt securities, dividend and interest payments and funds received from clients are so invested automatically on a daily basis. When securities are sold, client funds will be available on the settlement date of the trade(s). Funds placed in a client's account by personal check usually will not be invested until the respective custodian determines that the funds are in good order. Due to the foregoing practices, GBMI may obtain federal funds prior to the date that deposits are credited to client accounts and thus may realize some economic benefit because of the delay in investing these funds. Where an unaffiliated broker/dealer or other entity acts as custodian of the client's account assets, GBM Wealth has no control over the manner in which the cash reserves will be handled. The client and/or custodian will make that determination.

Based upon the similarity of investments among client accounts having similar investment objectives and the fact that GBM Wealth may direct the purchase of securities for more than one account simultaneously, and the possible appearance of similarity in the treatment of clients, all client accounts are handled under the following basic conditions designed to prevent pooling of assets and/or the management of accounts on a de facto pooled basis resulting in the existence of an investment company. The custody of accounts held by the custodian on behalf of GBM Wealth is structured such that each client's securities are held in nominee name only for ministerial purposes and each client's account is maintained as a separate account. The client's beneficial interest in a security does not represent an undivided interest in all the securities held by the custodian, but rather represents a direct and beneficial interest in the securities in the account.

B. Registration as a Futures Commission Merchant, Commodity Pool Operator or a Commodity Trading Adviser

Neither the Firm nor its employees are registered or have an application pending to register as a futures commission merchant, commodity pool operator or commodity trading adviser.

C. Registration Relationships Material to This Advisory Business and Conflicts of Interest

Other than the items noted in Section 10-A above, and including Corporativo GBM SAB de CV and Illac Advisors, LLC, neither GBMI, nor its advisors, have any registration relationships material to its business; or that pose a potential conflict of interest.

D. Selection of Other Advisors of Managers and How This Adviser is Compensated for Those Selections

On occasion, and as appropriate, GBM Wealth may recommend the use of other third-party advisors, such as Xendia Wealth, LLC (CRD # 157973) to act as the Client's Portfolio Manager. If such is recommended, the Client will receive a copy of the recommended third-party advisors Form ADV Part 2A and Part 2B, as applicable.

In these instances, the Firm will receive a portion of the advisory fee charged to the client accounts. GBM Wealth compensates Xendia from the client advisory fees pursuant to a tiered revenue-sharing arrangement described in Item 5. Clients should be aware that this arrangement creates a conflict of interest, as GBM Wealth's retained share of advisory fees increases as total firm AUM grows.

ITEM 11: CODE OF ETHICS, PARTICIPATION OR INTEREST IN CLIENT TRANSACTIONS AND PERSONAL TRADING

A. Code of Ethics

GBM Wealth has adopted a Code of Ethics to ensure that securities transactions by GBM Wealth employees are consistent with the Firm's fiduciary duty to its clients and to ensure compliance with legal requirements and GBM Wealth's standards of business conduct. The Compliance Manual and Code of Ethics require that all trades made by employees or related persons of GBM Wealth, who make recommendations or participate in the determination of which recommendation shall be made, be reviewed by the designated person responsible (except transactions in investment company securities and/or other exempt transactions). GBM Wealth will also maintain account statements for all applicable personal securities transactions. Further, the Compliance Manual and Code of Ethics impose certain policies and procedures concerning the misuse of material non-public information that are designed to prevent insider trading by any officer, partner, or associated person of GBM Wealth. A written copy of the GBM Wealth's Code of Ethics is available upon request.

No security may be bought or sold by a principal or employee of GBM Wealth before GBM Wealth clients' accounts have had the opportunity to make such transactions as appropriate. Principals and employees will not receive a more favorable execution price on a particular day than those received by GBM Wealth's investment advisory clients.

To mitigate conflicts of interest, all employees of GBM Wealth must comply with the Firm's Supervisory Procedures and Code of Ethics, which impose restrictions on the purchase or sale of securities for their own accounts and the accounts of certain affiliated persons.

B. Recommendations Involving Material Financial Interests

The Firm does not recommend to clients any securities in which the Firm or its personnel has a material financial interest. The Firm may invest a portion of its client assets in investments of affiliated entities. The investments offered by GBM Wealth affiliates include mutual funds, fixed income instruments and other similar vehicles.

C. Investing in the Same Securities as Clients

GBM Wealth's employees and persons associated with GBM Wealth are required to follow GBM Wealth's Code of Ethics. Subject to satisfying this policy and applicable laws, officers, directors and employees of GBM Wealth and its affiliates may trade or invest for their own accounts in securities which are recommended to and or purchased for GBM Wealth's clients. The Code of Ethics is designed to assure that the personal securities transactions, activities and interests of the employees of GBM Wealth will not interfere with (i) making decisions in the best interest of advisory clients and (ii) implementing such decisions while, at the same time, allowing employees to invest for their own accounts because the Code of Ethics, in some circumstances, would permit

employees to invest in the same securities as clients, there is a possibility that employees might benefit from market activity by a client in a security held by an employee. Employee trading is monitored by the Firm to mitigate trading conflicts of interest between GBM Wealth and its clients.

D. Trading the Same Securities as Clients' Securities

Please see response to Item 11.C. above.

ITEM 12: BROKERAGE PRACTICES

A. Selecting Brokerage Firms

GBM Wealth will supervise and direct the investments of the client accounts subject to such limitations as the client may impose in writing. GBM Wealth, as agent and attorney-in-fact with respect to certain discretionary client account(s) and without prior consultation with the client, will: (a) direct the purchase, sale, exchange, conversion, and otherwise trade in stocks, bonds and other securities including money market instruments; (b) direct the amount of securities purchased, sold, exchanged, and otherwise traded; (c) place orders for the execution of such securities transactions with a broker/dealer subject to written limitations imposed by the client; and (d) determine the commission rates paid. GBM Wealth will place orders for the execution of transactions through GBMI (with Pershing as its custodian) or other custodians as noted in the client's advisory agreement. GBM Wealth will not receive any compensation as a result of placing such order(s). All custodians, with the exception of GBMI, (with Pershing as their custodian), typically charge a commission as compensation for their execution of the trade(s). Any execution costs charged by GBMI are paid by GBM Wealth and not passed through to the client.

The Firm will open accounts at GBMI, using Pershing as the custodian, unless otherwise directed by the customer. GBMI does not receive compensation for transactions executed and custodied by Pershing, except as otherwise noted in this Brochure.

The Firm believes that such directing of orders to be in the best interests of its client, taking into consideration in addition to access to and quality of research resources, execution capability, market services, timely response, and other services provided by GBMI which are expected to enhance the general portfolio management capabilities of GBM Wealth Management.

It is not GBM Wealth's practice to negotiate "execution only" commission rates with non-affiliated broker-dealers or custodians, thus the client may be deemed to be paying for other services provided by the non-affiliated entity which are included in the commission rate, if any. These other services provided by non-affiliated entities may include research, services such as news and quotation equipment, electronic office equipment, account record-keeping, on-line financial information and data processing.

GBM Wealth will allocate brokerage transactions in a manner it believes to be fair and reasonable to its clients, and consistent with client objectives. Prospective clients are hereby advised that lower brokerage fees for comparable services may be available from other sources.

B. Aggregation of Securities for Multiple Client Accounts

When GBM Wealth trades the same security in more than one client account, the Firm will generally attempt to batch or "bunch" the trades in order to create a "block transaction."

Generally, buying and selling in blocks helps create trading efficiencies, prompt attention and desired price execution. GBM Wealth will place all, or substantially all, transactions to purchase or sell common stocks with the client's "directed" broker, when applicable. Whenever possible, GBM Wealth will attempt to batch or aggregate trades for clients who use the same directed brokers in order to create a "block transaction."

The commission amount and per share commission rate will differ among clients with directed brokerage relationships due to the dollar value and the size (number of shares) of the trade for each account, and the total relationship between the client and their broker. Because each client may differ in portfolio size, investment objective, equity exposure and the extent of the relationship with their broker, GBM Wealth does not negotiate commission discounts on the block transaction itself.

ITEM 13: REVIEW OF ACCOUNTS

A. Periodic Reviews

Client accounts are reviewed on an ongoing basis by the investment adviser representative assigned to each account to ensure portfolio management remains consistent with each client(s) investment mandate, risk tolerance, and stated objectives. In addition, the Firm's Chief Compliance Officer, or her designee, conducts a periodic supervisory review of accounts no less than annually to assess compliance with client(s) investment guidelines and applicable regulatory guidelines. These reviews are designed to help ensure that transactions are suitable in connection with the client's investment objectives, meet that client's quality standards, and that overall account management remains consistent with client's stated goals. of the client's account is consistent with the client's investment objectives

B. Factors that Will Trigger Non-Periodic Reviews

In addition to periodic reviews, account reviews may be triggered by any of the following: a client's request, material changes in the client's individual financial circumstances or investment objectives, significant market volatility or unusual market activity, changes in economic or political conditions, or any other event that may affect suitability of the client's current portfolio holdings.

C. Reports Provided to Clients

Clients received account statements and transaction confirmations directly from their qualified custodian(s) no less than quarterly. Clients are encouraged to review all custodial statements carefully and to contact their investment adviser representative with any questions. The Firm does not provide regular reports to its clients except upon client request.

ITEM 14: CLIENT REFERRALS AND OTHER COMPENSATION

The Firm has a referral agreement with its affiliate, GBM Casa de Bolsa in Mexico. Any such referral fee shall be paid to GBM Casa De Bolsa solely from the fees earned by the Firm hereunder and shall not result in any additional charge to the client. If the client is introduced to GBM Wealth, the solicitor and/or the Firm shall provide the prospective client with a copy of this Form ADV Part 2A, and the GBM Wealth Form CRS.

Other Compensation

Please refer to Item 5, *Fees and Compensation*, Item 10, *Other Financial Industry Activities and Affiliations* and Item 12, *Brokerage Practices*, for additional information about other compensation and non-economic benefits.

ITEM 15: CUSTODY

The Firm is deemed to have limited custody of client funds and securities solely as a result of its authority to deduct advisory fees directly from a client's account(s). The Firm does not otherwise have physical custody of client funds or securities. Clients' funds and securities are held with a bank, broker-dealer or qualified custodians.

You will receive account statements from the qualified custodian(s) holding your funds and securities at least quarterly. The account statements from your custodian(s) will indicate the amount of our advisory fees deducted from your account(s) each billing period. You should carefully review all custodial account statements and compare them against any reports provided by the Firm. If there is activity in the account, you will receive brokerage transaction confirmations and monthly statements from the custodian of the account. If you have questions about your account statements, please contact us.

ITEM 16: INVESTMENT DISCRETION

GBM Wealth and/or the selected Third-Party Advisor, as applicable usually receives written discretionary authority from the client at the outset of an advisory relationship to select the identity and amount of securities to be bought or sold. In all cases, however, such discretion is to be exercised in a manner consistent with the stated investment objectives for the particular client account. Investment guidelines and restrictions, such as an “Investment Advisory Mandate” must be provided to GBM Wealth in writing.

When selecting securities, and determining amounts, GBM Wealth and/or the Third-Party Advisor, as applicable, observes the investment policies, limitations and restrictions of the clients for which it advises. For registered investment companies, GBM Wealth’s and/or the Third-Party Advisor’s authority to trade securities may also be limited by certain federal securities and tax laws that require diversification of investments and favor the holding of investments once made.

ITEM 17: VOTING CLIENT SECURITIES

GBM Wealth shall not take any action or render any advice with respect to the voting of proxies solicited by, or with respect to, the issuers of any securities held in the Accounts. The Client should refer to the ADV Part 2A of the selected Third-Party Advisor(s) to determine such Advisor's proxy voting policy.

GBM Wealth will not file proof of claims in class action settlements. Clients assume the sole responsibility of evaluating the merits and risks associated with any class action settlement; therefore, clients are responsible for filing proofs of claims. GBM Wealth cannot provide legal advice and clients are encouraged to consult with their legal advisor when filing claims in securities class actions suits. The client's response to a settlement notice will impact the client's legal rights. In no way shall the client be precluded from contacting GBM Wealth for information about a particular class action settlement. Should GBM Wealth inadvertently receive proof of claims for securities class action settlements on behalf of clients, GBM Wealth will immediately forward such information on to clients, and will not take any further action with respect to the claim

ITEM 18: FINANCIAL INFORMATION

Registered investment advisers are required in this Item to provide clients with certain financial information or disclosures about GBM Wealth's financial condition. GBM Wealth is well capitalized, has no financial commitment that impairs its ability to meet contractual and fiduciary commitments to clients and has not been the subject of a bankruptcy proceeding.

A. Balance Sheet

GBM Wealth does not require nor solicit prepayment of investment advisory fees which would result in custody issues. Therefore, the Adviser is not required to include a balance sheet with this brochure.

B. Financial Conditions

Neither GBM Wealth nor its management have any financial conditions that are likely to reasonably impair the Adviser's ability to meet contractual commitments to clients.

C. Bankruptcy Petitions

GBM Wealth has not been the subject of a bankruptcy petition in the last ten years.
